

## Aluminum screw cover enclosure

The 5412 EASC aluminum screw cover enclosures are used indoors or outdoors to protect the enclosed controls from dust, dirt, oil and water splashing. The box and cover are made from 16 GA (Type 304) aluminum with all seams continuously welded. The opening has a curled lip around all sides to prevent dripping water from entering the enclosure when

the door is open, it also increases rigidity. A high quality robotically poured-in-place seamless gasket ensures a complete and durable water tight seal. The enclosure can be internally mounted or externally mounted using the included die cast wall mounting feet. These feet have oblong holes to facilitate installation. Each enclosure comes com-

plete with a 14 GA inner panel which mounts on weldnuts. The enclosures' exterior are unpainted and brushed smooth. The enclosures' interior and panels are finished with white heat fused polyester powder, electrostatically applied on a pretreated base. **CSA Certified / UL Listed NEMA/EEMAC 4X / IP66**

NOTE: - TWO MOUNTING FEET IF B=4" OR LESS
