

Water, oil & dust tight quarter turn cover enclosures

The 5412 ESQT water, oil & dust tight enclosures are used indoors or outdoors in areas where the enclosures may be subject to hosing or to water coming from any direction or for protection against dust, dirt or oil splashing. The 5412 ESQT are made from quality 14 GA or 16 GA steel, with corner seams continuously welded. The opening has a curled lip around all sides to prevent drip-

ping water from entering the enclosure when the cover has been removed, it also increases rigidity. A high quality robotically poured-in-place seamless gasket ensures a complete and durable water tight seal. Quarter turn locking mechanisms on all sides ensure positive closing. Internal mounting holes are provided. Each enclosure comes **complete with a 12 GA inner**

panel which is double bent* for maximum rigidity and which mounts on M8 welded studs. Enclosures and panels are finished with heat fused polyester powder, electrostatically applied on a pretreated base. Box is ANSI/ASA 61 gray, panel is white (other colors available).

**CSA Certified / UL Listed
NEMA/EEMAC 4-12 / IP66**
