

Quick Install Rear Cover for Streamline cabinet

The 6100 SLRQ Streamline quick install rear cover is installed in the front, back or both of a Streamline or Mtrx cabinet frame. This cover is supplied standard with all installation hard-

ware. The cover is hooked and locked by its top flange and fixed in place by lower latches. This rear cover does not have any gasket for sealing.

Construction is steel. Standard

finish is powder coated RAL7035 textured light gray or textured black RAL9005.
