

Solid base

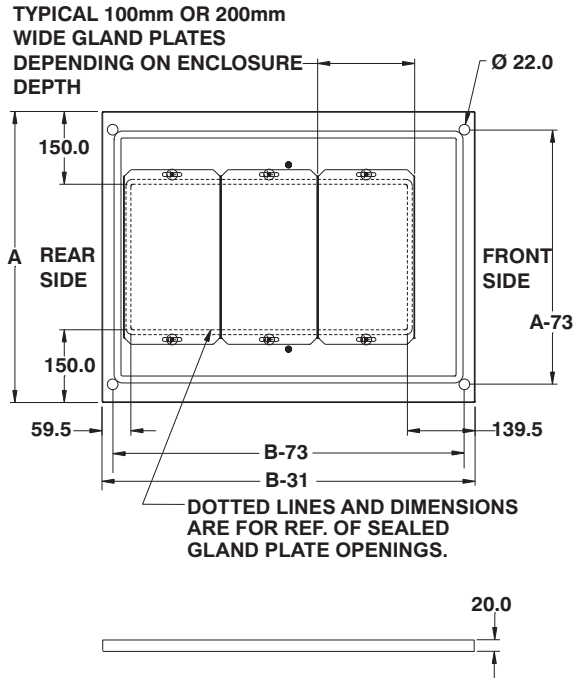

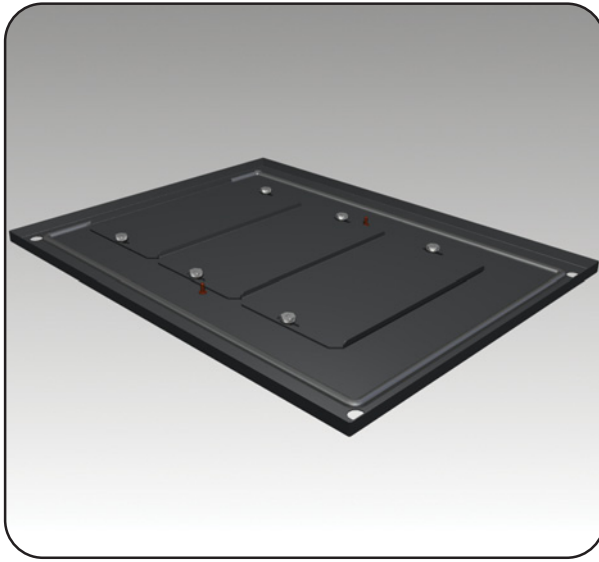

The 6500 MXB solid base is made to be installed at the bottom of a Mtrx cabinet. They are made of steel. Solid bases are available with separate gland plates (standard) or one full gland plate.

Installation hardware are included. A quality poured-in-place gasket ensures a complete and durable seal.

The bases are finished with heat fused polyester powder, electrostatically applied on a phospho-

tized base. Finish is RAL7011 sandtex dark gray.

Note: If required, plinths must be ordered separately.
