

## Transportation base

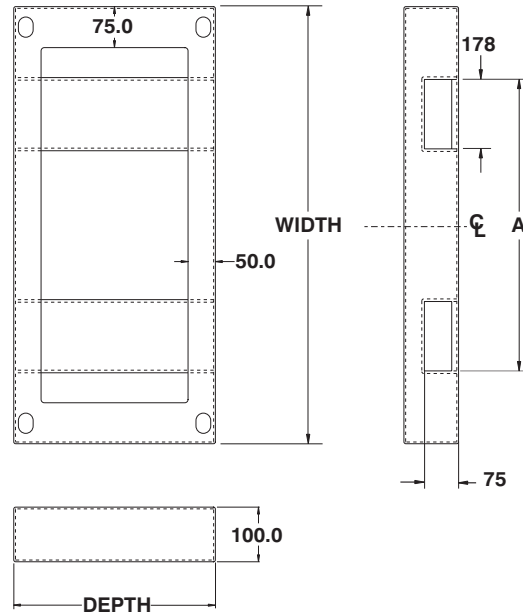

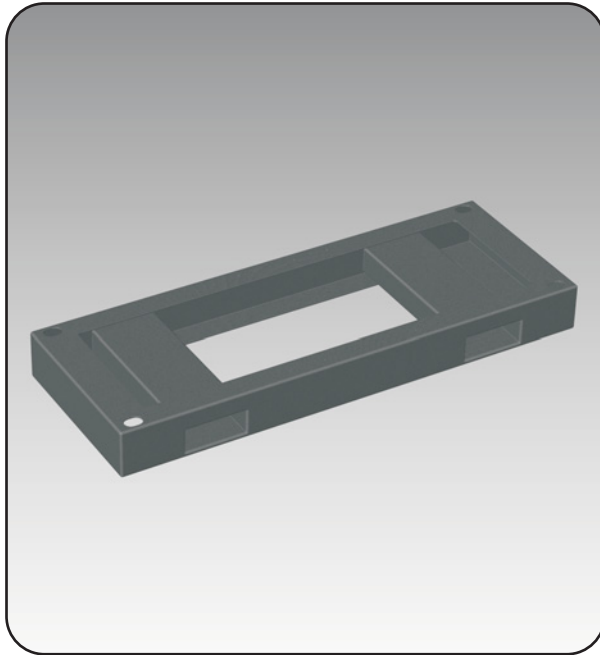

The **6500 MXBT transportation bases** are installed under rows of Mtrx cabinets. They are made of steel.

The 6500 MXBT are used to facilitate the transportation of ganged cabinet.

The rugged 10 GA open bottom base is built with openings and tracks to facilitate the use of either fork lifts or lifting chains and rods. A high quality robotically poured-in-place gasket ensures a complete and durable seal. The

bases are finished with heat fused polyester powder, electrostatically applied on a phosphatized base.

Finish is RAL7011 sandtex dark gray.
