

Side cover with access panel

The **6500 MXCP Access panel side covers** are installed on the side faces of a Mtrx cabinet. They are made of steel. These side covers were developed for applications where access is required or limited to the lower portion of

the enclosure. This approach enables the handling and possible modifications of much smaller panels should wiring or piping be routed via the side of the enclosure. Side cover kits are supplied standard with: (i) all installation

hardware and flush mounting screws; (ii) durable robotically poured-in-place gaskets; (iii) horizontal mullion to retain NEMA 12 rating. Finish is powder coated RAL7035 textured light gray.

CATALOG NUMBER	NOMINAL		DIMENSIONS	
	H	D	A	B
6500 MXCP0706	700	600	660	560
