

Half vertical doors for single bay cabinet

The 6500 MXDH half vertical doors are installed on the front and/or back face of a Mtrx single bay cabinet. They are made of steel. These doors were developed for applications where two controlled areas can be accessed separately. Door kits are supplied standard with: (i) upper and lower

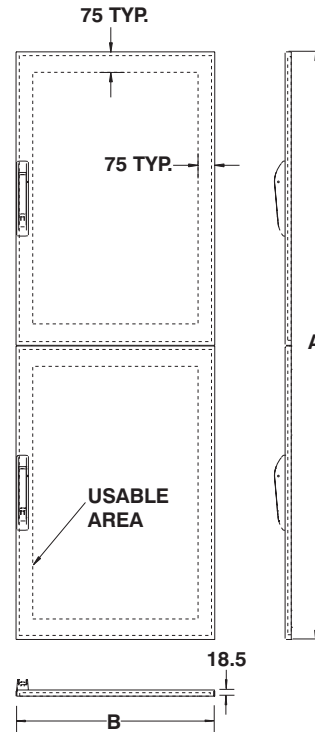

door panels with two low profile metallic pull handles and two point locking mechanisms; (ii) reinforcing tubular vertical stiffeners with provision for M5 self-tapping hardware; (iii) four heavy duty hinges with captive hinge pins; (iv) durable robotically poured-in-place gaskets;

and (v) a horizontal mullion to retain NEMA 12 rating. Finish is powder coated RAL7035 textured light gray.

Note: Can be combined with half rear cover 6500 MXRH (see p.34)

Note: Other partial doors and covers are available on page 74
