

Watertight plinths

The 6500 MXPLW watertight plinths are made to be installed under Mtrx cabinets. They are made of steel.

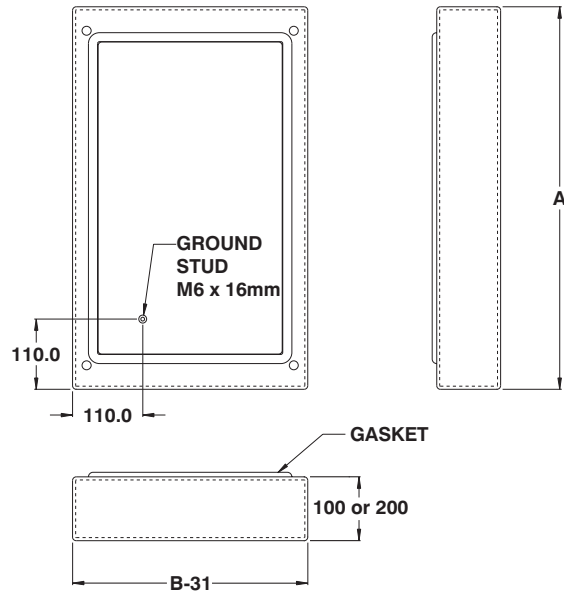

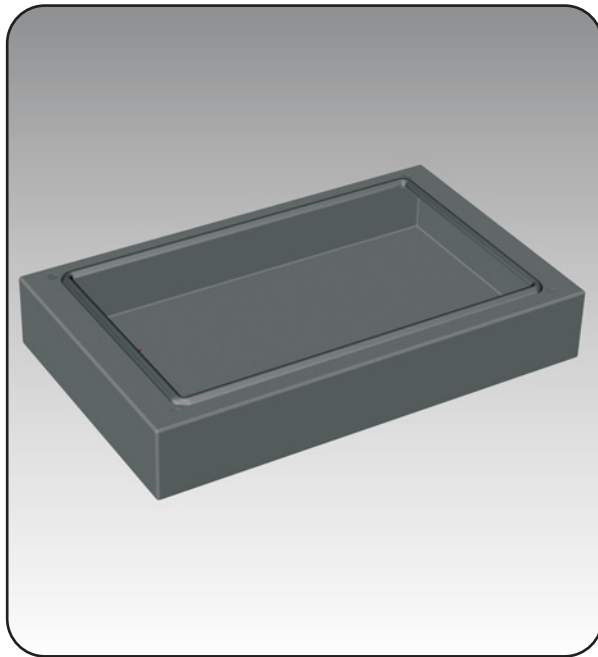

The 6500 MXPLW is a seamlessly welded base and comes with all installation hardware.

A quality robotically poured-in-place gasket ensures a complete and durable watertight seal.

The plinths are finished with heat fused polyester powder, electrostatically applied on a phosphatized base.

Finish is RAL7011 sandtex dark gray.

Please note that watertight plinths cannot be stacked.
