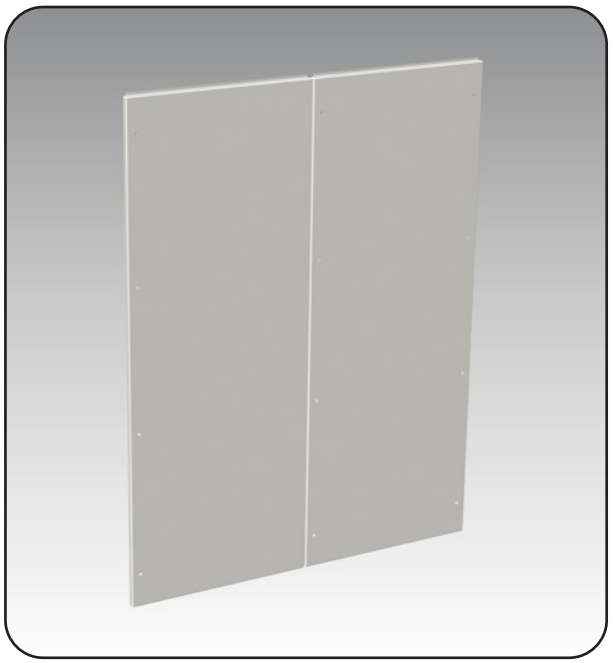
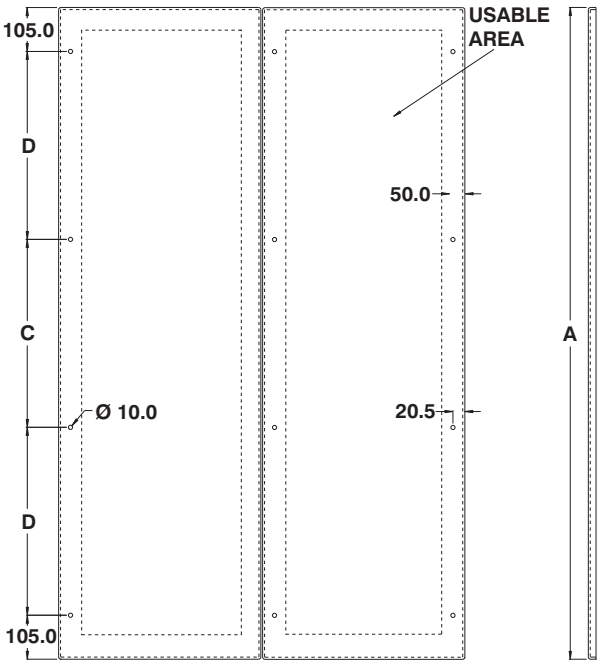
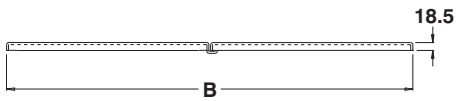
Double piece back cover

The 6500 MXR back covers are made to be installed on the back and/or front face of a double bay Mtrx cabinet. They are made of steel. The 6500 MXR consists of two overlapping back covers, ribbed mounting brackets and installation hardware. A robotically poured-in place gasket ensures a complete and durable seal. The covers are finished with heat fused polyester powder, electrostatically applied on a phosphatized base. Finish is RAL7035 textured light gray.







FACTORY ASSEMBLED

CATALOG NUMBER	NOMINAL		DIMENSIONS			
	H	W	A	B	C	D
