

Vertical and Top mount air conditioner - Hazardous duty

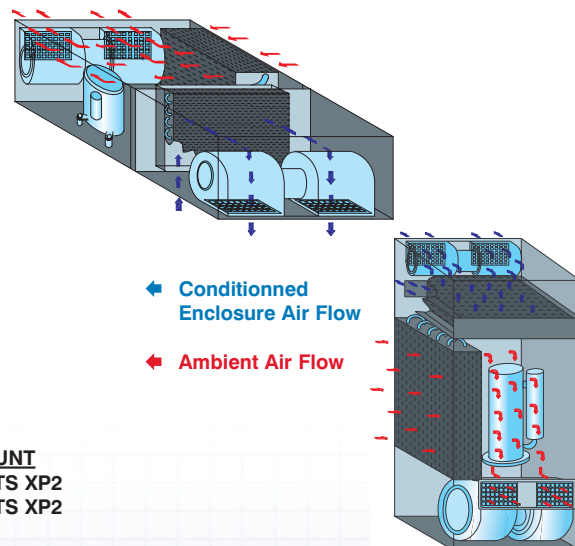

FEATURES

- Designed for purged and non purged enclosure systems Class 1, Division 2, Groups B, C and D
- Applications include process control systems for chemical, petrochemical, refining, field and offshore drilling operations, and more.
- Honeywell Thermostat and intrinsic safe circuit.
- Durable 16 gauge welded steel construction, including stainless steel models
- Built in condensate evaporation system, vertical mount only
- Efficient, quiet, long lasting rotary compressor
- CFC-free refrigeration system
- Space-saving aesthetic cabinet
- UL and third party certification for hazardous locations
- 100% factory tested
- Designed to mount on side of enclosure while maintaining NEMA type 12, 4, or 4X integrity
- Models available in capacities of 2000 through 20,000 BTUH
